Pegasus Bearing S.A. Policy of Quality

Our organization wants to contribute to the industrial and commercial development of our customers, by means of the marketing of solutions in bearings, chains and concerning applications, satisfying expectations and needs, within an ethical framework and fulfilling the applicable legal requirements.

We search to support the continuous improvement of process and to make secure the satisfaction of our customers, keeping a careful respect for the environment and giving priority to quality, making measurable goals and solid with this policy in order to be an excellent option to whom make a finicky analysis in the selection of their suppliers.

The commitment of the board of directors and of the all organization is shown through the decision of introducing and keeping a Management System of Quality based on 9001 ISO Norm that allows to carry out this Policy of Quality.
